

STREAMLINED CONSOLIDATED LEA IMPROVEMENT PLAN (S-CLIP)

DISTRICT NAME: Pike County School System

DISTRICT TEAM LEAD: Sheryl Watts

FY23 DISTRICT PLAN

As an alternative to completing its Consolidated Local Educational Agency (LEA) Improvement Plan (CLIP) through the Statewide Longitudinal Data System (SLDS) format, an LEA that gives the assurance below that it implemented a locally-developed school improvement process may submit this Streamlined Consolidated LEA Improvement Plan (S-CLIP) for funding under Section 8305 of the Elementary and Secondary Education Act (ESEA) of 1965, as amended by the Every Student Succeeds Act (ESSA) of 2015. An LEA completes and submits the responses below to the S-CLIP questions as the first component of the S-CLIP for federal funding.

An LEA's completed application submission under the S-CLIP includes the following:

☒ **ASSURANCE:** The LEA has in place a locally-developed school improvement process and/or current strategic plan and/or charter system contract.

The following prompts include both text space for narrative and, where appropriate, checkboxes for identifying options related to responding to the prompts. Responses to all prompts must be completed.

1. Describe the process the LEA used to engage required stakeholders (families, community-based organizations, school and district staff/leaders, local government representatives/agencies) in planning for continuous improvement through its locally-developed school improvement process and/or current strategic plan and/or charter system contract.

The comprehensive needs assessment/stakeholder engagement process is ongoing but formally begins in January. The annual needs assessment and planning addresses needs for all district and school initiatives, as well as federal programs. The Pike County School System utilizes a variety of data sources to make decisions that will impact student learning and teacher effectiveness. Our needs assessment process includes examining student achievement data, perception data from stakeholder surveys, professional learning plans, teacher recruitment and retention data, in-field teacher and paraprofessional data, class size data, TKES data, and verbal/survey input from stakeholders. In the spring, each school

conducts a stakeholder meeting that includes parents, teachers, paraprofessionals, administrators, community members, School Council members, and other support staff. Invitations are made through the websites, all calls, and school kiosks. We also enjoy a strong relationship with the Pike Family Connections Collaborative, which consists of community members, mental health providers, and business and government leaders. School system representatives attend the collaborative meetings monthly and collect valuable input through this relationship. Once the input is collected from the schools and other representatives, a series of meetings are held at the school and district levels to consider all the prior stakeholder input and data and to make decisions regarding prioritized needs and equity concerns. The culminating activity from the various meetings involves completion of the system Comprehensive Needs Assessment. Stakeholders participating in our needs assessment process include system directors, administrators and teachers from each level, paraprofessionals, instructional coaches and counselors, parents, community members, School Council members, and higher education representatives. The results of this needs assessment determine any prioritized areas of need/inequity and guide the development of the various documents and parts that make up the Comprehensive LEA Improvement Plan (CLIP), Equity Plan (as part of the CLIP), and the Title I school-wide plan and provide focus for the expenditure of funds.

While we have conducted various surveys of the parents and public (calendar feedback, purpose statement work, etc.), we often engage directly with the community by attending civic clubs annually to provide information about the school system and solicit feedback and support (Rotary, Lions, NAACP, etc.).

The district has very few (less than 15) EL students; however, communications regarding stakeholder meetings/events are sent home in the child's native language. In certain instances, we also make phone calls to the family with a staff member of contracted provider who speaks the home language.

2. Describe the process the LEA used to engage required stakeholders (families, community-based organizations, school and district staff/leaders, local government representatives/agencies) as part of its locally-developed school improvement process to address the needs of subgroups.

In addition to the stakeholder engagement process described above, data are presented in a number of ways to ensure that all stakeholders understand the strengths and needs of each subgroup. Data/charts from both SLDS and GOSA are used to visually represent subgroup data. Additional information is drawn and presented from the CCRPI and District Balanced Scorecard/Performance Measures from the strategic plan.

The needs of low-income students, lowest achieving students, and neglected/delinquent students are explicitly addressed and communicated throughout the family engagement activities under Title I-A, to include parent involvement policies, the compact, school-wide plan, and Title I meetings.

Special education representatives are active team members on the local family and children intervention teams (LIPT, CHINS, and FINS), which consist of a variety of providers and government agencies who problem solve to provide interventions and resources for our most at risk children and families.

3. Describe how the LEA's locally-developed school improvement process and/or current strategic plan and/or charter system contract address the state's ESSA plan for continuous improvement within the:
 - problem solving process: identify needs, select evidence-based interventions, plan implementation, implement plan, and examine progress
 - Georgia Systems of Continuous Improvement: coherent instruction, professional capacity, supportive learning environment, family & community engagement, and effective leadership.

Response options (choose one or more):

- ☐ *Copy selected excerpts from documents describing the school improvement process and/or current strategic plan and/or charter system contract that specifically address continuous improvement and problem solving; or*
- ☐ *Highlight (in blue) selected excerpts from the school improvement process and/or current strategic plan and/or charter system contract that specifically address continuous improvement and problem solving and submit with this template; or*

The Pike County School District has in place a process to systematically review progress towards achieving the goals in the district improvement/strategic plan and SWSS contract. The needs assessment process is ongoing throughout the year with structured opportunities embedded for stakeholder input around data review and progress towards improvement initiatives. Families, community and local businesses/agencies are invited to provide input through surveys, local school councils, partnerships and meetings with the local Family Connections group, and school level family engagement nights. Along with this input, district and school level administrators and teachers review high stakes data by grade level, cohort, courses, teacher, and subgroups to prioritize needs and modify the district and school level improvement plans. With the administration of a student risk screener (MIBLSI), information gathered helps to determine our priorities around a supportive learning environment and have helped to shape action plans for Social Emotional Learning (SEL) implementation at each school. Cumulatively, these results are then used to select evidence-based interventions for identified needs, review effectiveness of locally and federally funded initiatives, and to determine/prioritize the use of federal funds, including Title I-A, Title II-A, Title IV-A, and IDEA. To ensure effective implementation of the plans, three times monthly, the district cabinet, which consists of the superintendent, deputy superintendent, director of teaching and learning, curriculum coordinator, special education coordinator, and school principals meet to review instructional plans and feedback to teachers. This is a part of our improvement strategy around coherent instruction, which has been a strong focus for us for the past two years. Additionally, all administrators, including cabinet members, assistant principals, and instructional coaches are embedded in school level PLC's. The purpose is multi-fold. 1.) This helps keep a focus on the PLC process of reviewing what students need to be able to do, how is that learning demonstrated, how do we know, and what do we do if they don't meet the target. 2.) This helps build professional capacity and effective leadership among administrators as we work and model together. The focus of data review in this process is primarily on formative assessment and end of unit performance. As a larger part of the data review/improvement process, the cabinet meets quarterly to review progress towards both school and district level improvement goals. Each action step and objective in the improvement plan(s) indicate required data to be reviewed at that time. Data may include achievement data, behavior data, specific subgroup or grade level data, or observational data depending on the goal.

4a. What components of the LEA's locally-developed school improvement process and/or current strategic plan and/or charter system contract address the ESSA plan requirements for identifying and addressing the needs and achievement gaps of its lowest performing students; and how supplemental federally-funded services for Economically Disadvantaged (ED), EL, migratory, homeless, children in foster care, children with disabilities, those who are neglected and delinquent, are coordinated to support the strategic plan.

Response options (choose one or more):

- ☐ *Copy selected excerpts from the documents describing the school improvement process and/or current strategic plan and/or charter system contract that specifically address the needs and achievement gaps in the identified subgroups above.*
- ☐ *Highlight (in green) selected excerpts (as applicable) from the school improvement process and/or current strategic plan and/or charter system contract that specifically address the needs and achievement gaps in the identified subgroups above and submit with this template.*
- ☒ *Check here to indicate the LEA has a school improvement process and/or current strategic plan and/or charter system contract and is providing additional details below in response to Question 4a.*

As part of the needs assessment and strategic planning process, data are disaggregated in many ways (as applies in Pike: ED, children with disabilities, gender, subgroups by ethnicity) to determine appropriate strategies and interventions. Our EL, migratory, homeless, foster care, and neglected and delinquent populations are so small that those students' needs are monitored on an individual basis. Achievement gaps are identified and action plans are created through the district/school level strategic planning process, state equity plan, and IDEA plans/goals. Based on

the identified needs, federal funds are used to provide additional personnel, technology, supplemental intervention materials, and tutoring. These federally funded initiatives are interwoven clearly in the district strategic plan and are often joint funded by multiple federal and local funds.

- 4b. From the LEA's locally-developed school improvement process and/or current strategic plan and/or charter system contract, how is the LEA ensuring ongoing and continuous coordination of services, supports, agency/community partnerships, and transition services for children served across its federal programs (Title I, Part A; Title I, Part A - Neglected and Delinquent Part D; Title I, Part A SIG; Title I, Part A and Title IX, Part A - Homeless Education; Title I, Part C; Title II, Part A; Title III, Part A; and IDEA) as well as services provided by Title IV, Part A and Title V, Part B, as required by the ESSA.

Pike County's strategic plan contains procedures to address ongoing and continuous coordination of services, supports, agency/community partnerships, and transition services for children.

Title I, Part A: The Pike County School system currently has one Title I served school, Pike County Primary School. At the primary school, in addition to and in coordination with the school strategic plan, Title I funds are used to support the Title I instructional program, and is generally in the form of teachers/paras, supplemental instructional supplies, equipment, technology, and software to use with students and professional development for teachers. From the district level, there is a part-time Title I parent involvement coordinator who oversees the family engagement teams, conducts parent volunteer trainings, and schedules workshops/classes for parents in conjunction with other programs such as Pre-K, Family Connections Partnership, DFACS, and other community agencies.

Title I, Neglected and Delinquent: Pike County does have one facility that serves neglected students. As part of the annual planning process, district staff consult with children's home administrator to identify needs and plan actions to effectively use the Title I set aside funds. Additionally, there is regular communication between the schools and the home regarding all school events and family engagement activities.

Homeless Education: The system Homeless Liaison trains school personnel to identify children in homeless situations. The system Homeless Liaison is consulted if any staff member suspects that a student qualifies for homeless services. The Homeless Liaison then investigates the situation and makes the ultimate determination on whether or

not students qualify. When a student does qualify, the appropriate information is entered into the Student Information System. Homeless set aside funds are used to purchase needed supplies and for tutoring services for identified homeless students on an as needed basis. Transportation is also provided to students on an as needed basis. Title I, Part A funds are also reserved to benefit the education of homeless students. Funds are allocated based on an annual analysis of student needs.

Migratory Students: An occupational form is included in all registration packets. Form responses allow us to identify migrant children. If responses indicate that employment of families follow seasonal work, copies will be sent to GaDOE MEP Region 2 Office. When migrant students enter our school system, a migratory PAC program is provided for migrant families in conjunction with other parent involvement programs. Specific activities to address the needs of migratory families are provided. Personnel from local agencies serve as resources for this information as well. The district will access the MSIX system to ensure accurate records are obtained. Migrant students will not be excluded, but will be selected & served based on the same criteria as other students. Title I, Part C of ESEA 1304(d) requires states to give "priority for services" to migrant children who 1. fail, or are most at risk of failing, to meet the state's challenging state student academic achievement standards, and 2. have their education interrupted during the regular school year. Both of these conditions must exist simultaneously for a migrant child to have "priority for services." PC Schools would make services available to migrant children through the use of the GaDOE Migrant Allocation Formula. GaDOE MEP Region 2 Office will serve as resource to help develop the best service model. In addition to local resources, the district will coordinate with the MEP Consortium Staff at ABAC.

EL Students: A home language survey is provided in all student enrollment packet. If a language other than English is indicated, the school registrar notifies the district's Curriculum Coordinator who then initiates the testing process, and provision of notifications and services, as appropriate.

Title II, Part A: The Title II-A funded activities are analyzed and a plan is developed to assess the effectiveness of each activity. The plan is submitted in the ConAPP as a part of the budget requirements. For each activity, the following are addressed:

- The Title II-A component the activity addresses
- a description of the activity
- the data to be collected to determine effectiveness
- the position of the person responsible for collecting the data and coordination the review and analysis of the data
- the timeline for collecting data and completing the review and analysis of the data.

The Effectiveness Plan is used throughout the year in monitoring program implementation and effectiveness and guides the needs assessment process for the following year. The Effectiveness Plan should be revised and uploaded if a budget amendment is submitted due to a change in needs and/or a significant change in budgeted strategies. Currently, there are no state or federally identified schools in the District; however, should there be future identification, it would be necessary to determine the needs of the school(s) giving it immediate priority status for funding. All source documentation is maintained in files, both hard copy and electronically, in the Federal Programs office.

Title IV, Part A: The Pike County School system makes a determination of how Title IV funds are spent following the needs assessment process. Needs are prioritized and funded based on the results from the Comprehensive Needs Assessment and Strategic Plan.
